

EAST COAST

Hydraulic Technician

H Y D R A U L I C S

East Coast Hydraulics is seeking a **Hydraulic Technician** to join the team in Mount Pearl, NL.

East Coast Hydraulics has been in operation for 40 years, with a solid customer base built from years of exceptional customer service, quality, and efficient work. They service the Marine, Industrial, Oil/Gas, Mining/Mineral Processing, Aquaculture, Construction, and Energy industries, partnering to achieve mutual strategic goals.

Position Summary

East Coast Hydraulics is experiencing a period of growth as we capitalize on productivity and efficiency improvements. As we continue this trajectory, we are searching for a **Hydraulic Technician** to be part of the operations service team.

Responsibilities:

- Utilize computers and other technologies to investigate and repair hydraulic equipment, including diagnostic software and digital tools.
- Perform disassembly and reassembly of machines and equipment during maintenance and repair processes.
- Read dials and meters to determine amperage, voltage, electrical output, and input at specific operating temperatures to analyze parts performance.
- Troubleshoot hydraulic system issues and diagnose problems accurately using available technological resources.
- Repair or replace hydraulic components such as pumps, motors, valves, cylinders, and hoses.
- Conduct tests to ensure hydraulic systems are functioning properly.
- Collaborate with engineering and maintenance teams to develop preventive maintenance schedules and procedures.
- Document all maintenance and repair work performed accurately and thoroughly.
- Always adhere to safety protocols and procedures, ensuring a safe working environment for yourself and others.
- Provide training and guidance to junior technicians or operators as needed.

Qualifications & Experience:

- 5+ years of experience in Hydraulics, Millwright or similar roles.
- High school diploma or equivalent; Technical certification or associate degree in hydraulic systems, mechanical engineering, or a related field preferred.
- Proven experience as an Industrial Hydraulic Technician or similar role.
- Strong knowledge of hydraulic systems, components, and equipment.
- Proficiency in using computers and other technologies for troubleshooting and repair tasks.
- Ability to disassemble and reassemble machines and equipment efficiently and accurately.
- Experience reading dials and meters to analyze electrical performance.
- Excellent troubleshooting skills and the ability to solve complex hydraulic system problems.
- Familiarity with hydraulic testing equipment and tools.

Hydraulic Technician H Y D R A U L I C S

- Ability to work independently or as part of a team.
- Strong attention to detail and organizational skills.
- Excellent communication and interpersonal abilities.
- Ideal certifications: IFPS (International Fluid Power Society) certified, Industrial Hydraulic Mechanic or Industrial Hydraulic Technician certification, GWO (Global Wind Organization) Basic Safety Training (BST), Basic Technical Training (BTT), and Advanced Rescue Training (ART), Millwright certification.

Salary & Benefits:

- Annual salary, commensurate with experience.
- Health, Vision & Dental benefits plus additional compensation incentives

A competitive total rewards package, with benefits and employer contributed pension plan. We expect our team members to grow and take advantage of learning opportunities as we grow our culture of teamwork, innovation, and collaboration.

Apply in Confidence:

Only those candidates being considered for an interview will be contacted.

Interested and qualified candidates should submit their resume & cover letter to:

At East Coast Hydraulics we recognize the value of diversity and are committed to making intentional steps toward building inclusive teams that better reflect the communities East Coast Hydraulics and the organizations we serve operate within. We believe that inclusion is not just about making room at the table but about seeking out talent through a diversity lens and letting everyone know that their unique perspectives are important contributions to building stronger workplaces in a changing world.

We encourage all qualified candidates to apply for our posted positions. We welcome candidates to self-identify or make our recruitment team aware of any potential accommodations they may need during the recruitment process.

This opportunity is only available for candidates legally entitled to work in Canada. We thank all applicants for their interest, however, only those candidates being considered for an interview will be contacted.
